RE: Reference letter for 845 Design

To Whom It May Concern,

This correspondence serves as a formal Letter of Recommendation for the professional services of 845 Design Group. As the Village Manager of an actively developing suburban community, I have had need to contract for architectural services on a multitude of projects. Having worked with a number of firms throughout my career, I can attest to the proficiency and capability of 845 Design Group, and appreciate the value of their experience and creativity.

I have had the opportunity to work with Ms Zaura in her capacity at another firm during the design and construction of our Village Hall. Her specific expertise and commitment to excellence led me to hire 845 Design Group for another significant Village project. Although that venture never reached the construction phase due to unrelated circumstances, the work and effort of Jamie and Megan exceeded expectations, was on schedule, and on budget.

Based on my experience with the team, I have recommended 845 Design Group to multiple colleagues for their municipal and private sector needs. And I will happily continue to do so.

A handwritten signature in black ink, appearing to read "Jon A. Sfondilis".
